## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1- 6 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

the allowability recites at least in part: at least one conductive plate placed above the at least one exothermal unit of the circuit board; a radiator board comprising at least two lock structures corresponding to the at least two apertures of the circuit board, each lock structure having a deforming section and two long slots, wherein the deforming section being formed between the two long slots, and a lock seat placed on the deforming section; and at least two lock attachments respectively disposed through the at least two apertures of the circuit board and locked onto the lock seat of the radiator board to press the radiator board close onto the at least one conductive plate and the at least one exothermal unit, wherein a locking force from the lock seat of the radiator board causes the deforming section to undergo resilience deformation facing the circuit board to absorb a contact pressure generated between the radiator board, the at least one conductive plate and the at least one exothermal unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
